ALFAR ABUSALIHU

No:15, New Settlement Rd, Puttalam 61300, Sri Lanka

Email: alfarabusalihu@gmail.com | **Mobile & Whatsapp**: +9477 579 7489

Personal Statement

A tech enthusiast passionate about rapidly evolving technologies. As a quick learner, easily adapt to different tech stacks and tools. My goal is to contribute to my workplace's continuous growth while enhancing my skills and experience to the next level.

Skills

Programming: JavaScript (ES6), TypeScript, PHP

Stacks: HTML, CSS, SCSS, Angular, React, Node.js, NestJS, Bootstrap, Ant Design,Tailwind CSS

Tools: MySQL, PostgreSQL, Amazon DynamoDB, Docker, Git, JIRA, GitHub, GitLab, Figma Agile Framework (Kanban)

Languages: English(Conversational), Sinhala(Conversational) and Tamil(Native)

Professional Experience

Intern - Seller Tower   11/2024 - 05/2025

- As a Full Stack Developer, I developed user interfaces using Next.js, along with Ant Design and Bootstrap for styling. On the backend, I worked with Go to build and manage services, while utilizing Amazon DynamoDB as the database.
- Additionally, I have participated in weekly scrum meetings, code review sessions, and collaborated on prototype designs using Figma.
  Stacks- Next JS, Tailwind CSS, Go, Antd, Amazon DynamoDB, GIT and Docker

Education

Cardiff Metropolitan University (ICBT Colombo)   03/2022 - 03/2024

Higher Diploma in Computing and Software Engineering

Personal Projects

Infinite Notes

Infinite Notes is a project for storing notes of users, it is developed with the frontend of Angular framework, Nest JS backend and PostgreSQL database. It allows users to do CRUD operations with their customized notes.

Stacks: HTML, CSS, Angular, Nestjs, PostgreSQL, Prisma ORM, Bootstrap, Ngx-bootstrap, Rxjs
